PRESENTS

CODE CRUSADE

Nov 21st - Nov 22nd 2025

9:00 am to 4:00pm

EVENT OVERVIEW

The School of ECE, in collaboration with the </DevBraze> Club and IEEE Student Branch, proudly presents Code Crusade 2025 — an exciting 14-hour hackathon aimed at fostering innovation, creativity, and technical excellence among students.

This event serves as a dynamic platform for participants to ideate, design, and develop impactful tech solutions addressing real-world challenges. By encouraging interdisciplinary collaboration, Code Crusade empowers students to blend creativity with technology and shape solutions for a better tomorrow

OBJECTIVE

- Promote hands-on learning in cutting-edge technologies.
- Encourage collaborative problem-solving and creative thinking.
- Bridge the gap between academic learning and industry applications.
- Nurture future-ready engineers equipped with practical and innovative skills.

EVENT THEMES

1. GenAI + Machine Learning (ML)

Smart Education & Learning Tools - SDG 4
AI for Accessibility & Inclusion - SDG 10
Predictive Analytics for Urban Planning - SDG 11

2. FinTech + Blockchain

Blockchain for Supply Chain Transparency - SDG 12
Decentralized Finance (DeFi) & Smart Contracts - SDG 8
Tokenized Microtransactions for Small Businesses - SDG 9

3. Cybersecurity + Cloud

Data Privacy and Protection Frameworks - SDG 16
Digital Identity & Authentication - SDG 16
Cybercrime Prevention Tools - SDG 16
Secure Health or Government Data Systems - SDG 3

4. Internet of Things (IoT)

Smart Cities & Urban Mobility - SDG 11
Energy Monitoring & Optimization - SDG 7
Smart Agriculture & Irrigation Systems - SDG 2
Environmental & Air Quality Monitoring - SDG 13

5. Open Innovation

Note: Ideas outside the mentioned projects & themes are also accepted, by mentioning the relevant SDG of your idea.

ELIGIBILITY & TEAM FORMATION

- Open to all students from REVA University.
- Teams of 3 members are allowed.
- Interdisciplinary collaboration is encouraged to bring diverse ideas and skillsets.
- No Registration Fee-participation is completely free to encourage inclusivity and creativity.

RESOURCES & SUPPORT

- Mentorship from industry professionals and faculty experts.
- Access to technical resources and tools during the hackathon.
- E-Certificates for all participants and exciting prizes for winning teams.
- Incubation and startup support from REVA Nest

EVALUATION CRITERIA

Round 1:Idea and Concept pre-Screening (08/11/2025)

- This round is a mandatory pre-qualification phase. It's mandatory to use Lean Canvas. Only teams that successfully pass this screening will be eligible to participate in the 14-hour hackathon on November 21st and 22nd.
- Submission Date: 8th November 2025.
- Submission Requirement: Teams must electronically submit a concise Presentation containing LEAN CANVAS, The submission must clearly outline the problem, proposed solution, and SDG alignment.
- Judging Focus: Judges will prioritize the following criteria for selection:
- Novelty and Innovation (High Focus): The originality of the concept and its creative application of technology.
- Alignment with UN SDGs (High Focus): The clarity and potential impact of the solution on the chosen Sustainable Development Goal(s).
- Result: The final list of shortlisted teams eligible to attend the hackathon on November 21st will be announced shortly after the submission deadline.

Round 2:Final Prototype Demonstration (22/11/2025)

- This is the final judging round for the projects developed during the 14-hour hackathon.
- Timing: Evaluation occurs during the dedicated Demonstration and Final Evaluation session on Day 2 (12:40 PM – 2:20 PM).
- Submission Requirement: Shortlisted teams must submit their Final Codebase and conduct a live demonstration of their Working Prototype alongside their Final Presentation.
- Judging Focus: Judges will prioritize:
  - Working Prototype (High Focus): Functionality, technical complexity, and completeness.
  - Presentation and Teamwork (High Focus): Effective articulation and demonstration of team collaboration.
  - Feasibility and Desirability (High Focus): Potential for real-world deployment.
  - Key Rule: Failure to demonstrate a functional working prototype during the scheduled time will result in disqualification from prize consideration. All code must be built only between 9:30 AM on Day 1 and the submission deadline on Day 2.

EVENT SCHEDULE

DAY 1 — 21st November 2025

Time	ACTIVITY
8:30 AM - 9:00 AM	Kickoff & Registration / Check-In
9:00 AM - 9:30 AM	Addressing the Participants & Speech by Jury/Faculty
9:30 AM - 10:20AM	Hackathon Begins
10:20 AM - 10:45 AM	Short Break
10:40 AM - 11:00 AM	Hackathon Continues
11:00 AM - 11:15 AM	Snacks distribution
11:15 AM - 12:30PM	Hackathon Continues
12:30 PM - 1:20 PM	Lunch break
1:20 - 3:00PM	Mentoring session
3:00 - 4:00	Round 1 Evaluation (Optional)
4:00PM	Day 1 concludes

DAY 2 — 22nd November 2025

	DAY 2
9:00 AM - 10:20 AM	Hackathon Continues
10:20 AM - 10:40 AM	Short Break
10:40 AM - 11:00 AM	Mentoring session
11:00 AM - 11:15 AM	Snacks Distribution
11:15 AM - 12:40 PM	Hackathon Continues
12:40 PM - 2:40 PM	Mentoring session
2:40 PM - 3:20 PM	Demonstration and Final Evaluation of Ideas by Jury
3:20 PM - 4:00 PM	Closing Ceremony & Announcement of Winners

RULES AND REGULATIONS

- All projects must be built during the hackathon.
- Its mandatory to use LEAN CANVAS in the ppt.
- Pre-built or pre-submitted projects are not allowed.
- No cloning of existing GitHub repositories — all code must be written fresh within the event duration.
- You may, however, use open-source libraries, APIs, or frameworks as building blocks.
- Teams can have 3 members (depending on your event rules).
- Interdisciplinary teams are encouraged — mix coders, designers, and idea creators.
- Each participant can be part of only one team.
- Projects must align with the given hackathon theme and SDGs.
- Out-of-theme projects may not be considered for final judging.
- All coding, designing, and implementation should happen within the hackathon time frame.
- Teams may plan or brainstorm ideas beforehand, but no code or assets should be developed before the event begins.
- All codebases must be uploaded to the provided platform (e.g., GitHub, Devpost) before submission time.
- Plagiarism, code theft, or idea copying from other teams is strictly prohibited.
- Each team should provide a Lean canvas for their theme ideas. If the team has any doubt regarding Lean canvas, they can refer to google.

- Any form of cheating, tampering, or unethical behavior may result in immediate disqualification.
- Respect mentors, judges, and fellow participants.
- Teams can use open-source tools, SDKs, APIs, and datasets available publicly.
- No use of pre-trained proprietary data unless permitted by organizers.
- Mentors will be available during the hackathon for technical and design guidance.
- Teams are encouraged to interact, ask questions, and seek feedback.
- Submit your project before the official deadline — late submissions may not be evaluated.
- Maintain a collaborative, inclusive, and respectful environment.
- Harassment or discrimination of any kind will not be tolerated.
- Decisions made by the organizing committee and judges are final.

PRIZE POOL

Great ideas deserve great rewards! Showcase your creativity, collaboration, and coding brilliance — and win exciting cash prizes!

1st Place – 10,000
2nd Place – 6,000
3rd Place – 4,000
